

IN CASE OF EMERGENCY

Be Prepared to Evacuate

Prepare NOW To ACT QUICKLY

Very few people would like to think of the possibility of ever having to evacuate their homes. Unfortunately, not having a plan in the time when this may become a reality will further heighten the fear of the situation. This guide will assist you in developing and understanding a plan in the case an evacuation is needed. Plan well, revisit it annually – and we hope you never have to put into practice.

You need to be realistic on what can fit in your vehicle or your mode of transit.

Put together your emergency supply kit, keep it light enough that you can carry.

REMEMBER THE 6 P's

- | | | |
|---|--|--|
| 1 | | People & Pets |
| 2 | | Papers- <i>Important documents and Phone Numbers</i> |
| 3 | | Prescriptions- <i>Medications and Glasses</i> |
| 4 | | Pictures- <i>Irreplaceable Memorabilia</i> |
| 5 | | Phones- <i>Tablet/Laptop/USB</i> |
| 6 | | Plastics- <i>money</i> |

EMERGENCY SUPPLY KIT CHECKLIST

- Three-day supply of non perishable food and 4 litres water per person
- Prescriptions or special medications
- Change of clothes
- Battery powered radio with extra batteries
- Car key, credit cards and cash
- First aid kit
- Sanitation supplies
- Important documents- Birth cert. passport, health card.
- Food and water for pets
- Irreplaceable items you can carry (heirlooms, Pictures)

Depending on the situation there may be different things that you will be taking with you which may be influenced by the likelihood of house damage and length of time you expect to be away. Your plan will need to accommodate your family and pets. Stay informed by viewing Haldimand County's Website, listen to the radio and adhere to the Emergency Responders.

**Act Quickly, Move Carefully,
Stay Safe**
